How to Navigate Complicated Legal Issues Related to Estate Planning, Veteran's Benefits, and Medicaid

Seniors face many financial and legal issues as their health declines and their independence decreases. For example, if they join the 40% of people that will need nursing home care in their lifetime, can they afford the approximate \$8,000 per month cost? Can they keep their home if they move to an assisted living or skilled nursing facility? How can their trusted family members and loved ones step in at the appropriate time to make financial and medical decisions?

Learn to navigate complicated issues related to estate planning and long-term care planning. Haans Mulder and Jessica Arends, attorneys with Cunningham Dalman, P.C., will present an overview of estate planning, Medicare, Medicaid and Veteran's Benefits. **Attendance is limited.**
